Speakers:

Chris Bryan, P.E., LEED AP
Mitsubishi Electric
San Jose, CA

Chris Bryan is a Cal Poly graduate in Mechanical Engineering. He spent 6 years on the contracting side as a project engineer and project manager. He then switched to the MEP consulting side working for Syska Hennessy for 4 years as a mechanical engineer earning his PE and LEED AP credentials. For the last 2 years Chris has been with Mitsubishi Electric as a VRF area manager helping engineers and contractors design and install VRF systems.

Sherwin Khayatian
Norman S. Wright
San Francisco, CA

Sherwin Khayatian is a product manager at Norman S. Wright. He is a 20 year veteran of the HVAC industry with the last 10 years focused exclusively on the promotion of VRF equipment.

Nicole Seiderman
Norman S. Wright
San Jose, CA

Nicole Seiderman is a business development director for Norman S Wright focused on VRF product line and supporting owner’s groups and engineers. She graduated from UC Irvine with a B.S. in Mechanical engineering and has been with NSW for the past 6 years.

Topic:
VRF 101

Overview:

Have you been wanting to learn more about VRF systems? Then this presentation is for you! Sherwin, Chris and Nicole will be going over a general overview of VRF technology, VRF design considerations and benefits of VRF compared to traditional systems.
